

This map is based on a written description of the local intake area(s) for the school as published in the 1995 Government Gazette. Although the map clearly represents the LIA description, at some points over the boundary, primarily in urban areas, it may be necessary to refer to the written description. The street address of a residence is used to determine whether the property is inside a particular LIA. The LIA description can be found in the School Intake System on the Department of Education website. While boundaries remain the same, schools do not change from year to year, changes are made in accordance with the Department of Education's policies. Such changes are published in the Department of Education's website and in the Government Gazette. For any inquiries contact the Department of Education.

See website: [www.education.govt.nz](http://www.education.govt.nz) for further information on school boundaries.

**VICTORIA PARK PRIMARY SCHOOL**  
 SCHOOL CODE - 3444  
 Local Intake Area (Revised from 2015)  
 Last updated from Boundary Publication - Aug 2016
